Independent Auditor's Report

To the Board of Trustees MASB-SEG Property/Casualty Pool, Inc. and Subsidiary

We have audited the accompanying basic financial statements of MASB-SEG Property/Casualty Pool, Inc. and Subsidiary as of and for the year ended June 30, 2008, as listed in the table of contents. These financial statements are the responsibility of the Pool's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of MASB-SEG Reinsurance Limited, a component unit, whose statements reflect total assets of \$7,008,158 and total revenue of \$797,160. Those statements were audited by other auditors whose report has been furnished to us and our opinion, insofar as it relates to the amounts included for MASB-SEG Reinsurance Limited, is based solely on the report of the other auditors. The prior year summarized comparative information has been derived from the Pool's 2007 financial statements and, in our report dated September 11, 2007, we expressed an unqualified opinion on the basic financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of MASB-SEG Property/Casualty Pool, Inc. and Subsidiary at June 30, 2008 and 2007 and the changes in financial position, including cash flows, for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and required supplemental information are not a required part of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board (GASB). We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

To the Board of Trustees
MASB-SEG Property/Casualty
Pool, Inc. and Subsidiary

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise MASB-SEG Property/Casualty Pool, Inc. and Subsidiary's basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is not a required part of the basic financial statements. The other supplemental information is presented for the purpose of additional analysis. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The financial statements include summarized prior year comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Pool's financial statements for the year ended June 30, 2007, from which such summarized information was derived.

Management's Discussion and Analysis

Using this Annual Report

This annual report consists of the statement of net assets, the statement of revenue, expenses, and changes in net assets, and the statement of cash flows. Along with the footnotes, they provide detailed financial information concerning MASB-SEG Property/Casualty Pool, Inc. and Subsidiary (the "Pool"). This section, the management's discussion and analysis, is intended to provide an overview of the Pool's financial condition, result of operations, and other key information.

Financial Overview

In analyzing the Pool's financial position, it is important to recognize the mission of the Pool. From a financial perspective, the Pool's general objectives are to formulate, develop, and administer, on behalf of the members, a program of insurance to obtain lower costs for that coverage and to develop a comprehensive loss prevention program. As of June 30, 2008, 456 educational institutions within the state of Michigan participate in the Pool.

The key financial statistics for the Pool would be based on total anticipated claims to be paid in a specific policy year as compared to the contributions received from members, otherwise known in the industry as a "loss ratio."

	 Policy Year Ended								
	 2008		2007		2006				
Total premiums	\$ 29,520,522	\$	32,010,323	\$	33,012,422				
Total estimated claim payments	\$ 13,258,557	\$	11,663,732	\$	10,957,854				
Loss ratio	44.9%		36.4%		33.2%				

Total estimated claim payments for each policy year consist of claim payments and an estimate of unsettled claims estimated by a third-party administrator and an estimate of claims incurred but not reported by an independent actuary. The methods of making such estimates are continuously reviewed by management and, according to industry practice, any changes to these estimates will have an impact on reported results of future periods. Claim payments can change significantly from period to period because the ultimate amount paid for claims is dependent on the frequency of claims filed as well as other events such as jury decisions, court interpretations, and legislative changes.

Management's Discussion and Analysis (Continued)

Financial Overview (Continued)

To reduce the Pool's exposure to large specific claims, the Pool enters into excess insurance contracts to recover specific claim losses in excess of stated amounts in the excess insurance contract. Currently, the per claim limit totals \$500,000.

The Pool's total assets, liabilities, and net assets remained consistent from a year ago. Approximately 97 percent, 96 percent, and 96 percent in 2008, 2007, and 2006, respectively, of the assets consist of investments. Approximately 63 percent, 62 percent, and 62 percent in 2008, 2007, and 2006, respectively, of total liabilities consist of reserves for claims. Due to the nature of property/casualty claims and the related reporting and settlement processes of claims, it is anticipated, based on historical averages of the Pool, that approximately 35 percent of the estimated reserves for claims will be settled within one year. The analysis below presents a comparison of the Pool's current year financial position to the prior years:

	2008	2007	2006
Total assets	\$ 72,228,696	\$ 73,936,930	\$ 65,513,941
Current liabilities Long-term liabilities	\$ 14,733,071 <u>9,372,079</u>	\$ 14,153,512 9,893,297	\$ 14,888,872 <u>9,819,177</u>
Total liabilities	24,105,150	24,046,809	24,708,049
Net assets - Unrestricted	48,123,546	49,890,121	40,805,892
Total liabilities and net assets	\$ 72,228,696	\$ 73,936,930	\$ 65,513,941

Management's Discussion and Analysis (Continued)

Financial Overview (Continued)

The following table shows the major components of income from operations for the current year compared to the prior years:

	2008			2007		2006
Revenue						
Premiums	\$	30,105,522	\$	32,170,323	\$	33,087,422
Investment earnings		3,280,482		2,869,719		2,153,254
Realized and unrealized gains and losses						
on investments	_	(2,155,934)	_	3,064,634		(776,872)
Total revenue		31,230,070		38,104,676		34,463,804
Expenses						
Total provision for claims		(12,152,069)		(9,099,873)		(12,717,025)
Total operating expenses	_	(14,822,274)		(14,602,693)		(15,476,834)
Total expenses	_	(26,974,343)	_	(23,702,566)		(28,193,859)
Excess of Revenue Over Expenses		4,255,727		14,402,110		6,269,945
Premium and Investment Earnings Surplus Returned to Members	_	(6,022,302)	_	(5,317,881)	• • • •	(4,988,820)
Total (Decrease) Increase in Net Assets	<u>\$</u>	(1,766,575)	<u>\$</u>	9,084,229	<u>\$</u>	1,281,125

The increase in operating expenses during 2008 is a result of an increase in the MCCA assessment from the State of Michigan netted with a decrease in reinsurance fees. Total provision for claims, as noted above, is dependent on many factors and will change from year to year based on these factors.

Economic Factors and Next Year's Rates

The expected rates charged by the Pool for premiums for the next fiscal year are not expected to increase. MCCA assessment is expected to remain consistent with 2008 rates. All other operating expenses are expected to remain consistent with amounts reported in 2008. The provision for claim payments is expected to be consistent with historical trends and we are unaware of any economic events or legislative events that would have a significant impact on the operations of the Pool.

Management's Discussion and Analysis (Continued)

Contacting the Pool's Management

This financial report is intended to provide our members and regulators with a general overview of the accountability for the money the Pool receives. If you have questions about this report or need additional information, we welcome you to contact Timothy J. Averill, CPA, Chief Operations Officer, MASB-SEG Property/Casualty Pool, Inc. and Subsidiary, at 517-482-0871.

Premium and investment earnings surplus to be returned to members totaling \$6,000,000 and \$5,500,000 were approved during the years ended June 30, 2008 and 2007, respectively, and are reflected as premium and investment earnings surplus due to members in the statement of revenues, expenses, and changes in net assets.

Notes to Financial Statements June 30, 2008 and 2007

Note I - Nature of Business and Significant Accounting Policies

MASB-SEG Property/Casualty Pool, Inc. (the "Pool") was created on May 23, 1985 and organized under the laws of the State of Michigan as a governmental group property and casualty self-insurance pool. Operating activities of the Pool began July !, 1986. A total of 456 educational institutions within the state of Michigan participate in the Pool. The Pool's general objectives are to formulate, develop, and administer, on behalf of the members, a program of insurance to obtain lower costs for that coverage and to develop a comprehensive loss prevention program. The revenue and expenses for each self-insurance year are accounted for separately to determine net assets and deficiencies in net assets. A member's contribution to the Pool in excess of its share of claim losses, expenses, and other costs may be refunded as determined by the board of trustees (see Note 5). With the assistance of an actuary, the Pool may assess members a supplemental assessment in the event of deficiencies.

During the year ended June 30, 2004, the Pool acquired MASB-SEG Reinsurance Limited (the "Company") in a business combination accounted for as a component unit. The Company was incorporated as an exempted company under the Companies Law of the Cayman Islands on May 26, 1981 and holds a Restricted Class B Insurer's License under Section 4(2) of the Cayman Islands Insurance Law. Its primary line of business is to provide a program of reinsurance to the Pool.

Cash and Cash Equivalents - The Pool considers all cash and cash equivalents held by financial institutions with maturities of three months or less or held on hand to be cash and cash equivalents. All other short-term investments and long-term investments are excluded from cash and cash equivalents.

Investments - Investments consist of U.S. Treasury securities, U.S. agencies and passthroughs, asset-backed securities, corporate collateralized mortgage obligations, corporate bonds, money market accounts, mutual funds, and common stocks. Investments are stated at fair value, based on quoted market prices.

Accounts Receivable - Accounts receivable are stated at invoice cost. Management has determined that balances are collectible and no allowance for doubtful accounts is required.

Deferred Revenue - Prepayments of premiums are recorded as deferred revenue until the premiums are earned. The revenue is recognized during the applicable policy period.

Reserves for Claims - Reserves for claims represent the estimated liability for unpaid insurance losses and related expenses from reported claims and claims incurred but not reported. Changes to estimates are currently reflected in earnings.

Notes to Financial Statements June 30, 2008 and 2007

Note I - Nature of Business and Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Significant estimates exist relating to reserves for claims as described in Note 4.

Tax Status - Premium and investment income of the Pool is tax exempt under Section II5 of the Internal Revenue Code. Accordingly, no provision for income taxes is reflected in the financial statements.

Prior Year Presentation - The basic financial statements include prior year summarized comparative information in total, but not at the level of detail required for a full presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the financial statements for the year ended June 30, 2007, from which the summarized information was derived.

Note 2 - Deposits and Investments

The Pool's investment policy authorizes the Pool to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan.

The Pool designated Comerica Bank for the deposit of its funds.

The Pool's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the Pool's deposits may not be returned to it. The Pool does not have a specific deposit policy for custodial credit risk of bank deposits; however, the Pool believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Pool evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories. At June 30, 2008, the Pool's deposit balance of \$1,413,787 had bank deposits (checking and savings accounts) of \$1,313,787 that were uninsured and uncollateralized. At June 30, 2007, the Pool's deposit balance of \$932,389 had bank deposits (checking and savings accounts) of \$832,389 that were insured and uncollateralized.

Notes to Financial Statements June 30, 2008 and 2007

Note 2 - Deposits and Investments (Continued)

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Pool's investment policy does not restrict investment maturities. The Pool's policy minimizes interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market and limiting the average maturity in accordance with the Pool's cash requirements.

At June 30, 2008, the average maturities of investments are as follows:

			Weight Average Maturity
Investment Type		Fair Value	(Years)
U.S. Treasury securities	\$	9,165,580	7.92
U.S. agencies and pass-throughs		17,458,089	19.89
Asset-backed securities		99,334	21.50
Corporate CMO		2,426,310	30.71
Corporate bonds		17,021,208	9.92
Money markets		6,930,389	-
Mutual funds		1,199,687	-
Common stocks	_	15,447,284	-
Total fair value	\$	69,747,881	
Portfolio weighted average maturity			14.36

At June 30, 2007, the average maturities of investments are as follows:

		Weight Average Maturity
Investment Type	Fair Value	(Years)
U.S. Treasury securities	\$ 7,296,179	6.74
U.S. agencies and pass-throughs	18,355,090	18.39

Notes to Financial Statements June 30, 2008 and 2007

Rating

Note 2 - Deposits and Investments (Continued)

Credit Risk - Credit risk is the risk that an issuer to an investment will not fulfill its obligations. In accordance with the Pool's investment policy, the Pool may invest in U.S. government securities, corporate bonds, certain equity securities, collateralized mortgage obligations, asset-backed securities, and certain mutual funds.

At June 30, 2008, the credit quality ratings of debt securities by investment type (other than the U.S. government) are as follows:

		Rating
Rating	Fair Value	Organization
Asset-backed securities - Aaa	\$ 99,33	4 Moody's
Corporate CMO - Aaa	<u>\$ 2,426,31</u>	0 Moody's

Concentration of Credit Risk - The Pool places a limit of no more than 5 percent of the total aggregate portfolio which shall be invested in any one security or the securities of any one issuer with the exception that more than 5 percent can be invested in U.S. government securities. The Pool had no securities that individually exceed 5 percent of the Pool's total investments at June 30, 2008 or 2007.

Notes to Financial Statements June 30, 2008 and 2007

Note 3 - Administrative Fees

The Pool incurred \$2,219,435 and \$2,232,280 in administrative fees for the years ended June 30, 2008 and 2007, respectively. These administrative services were provided by SET, Inc., a company affiliated through common management. These services included insurance billing and collection, marketing, general accounting services, and office space.

Note 4 - Reserves for Claims

The reserves for claims incurred but not reported are estimated by an independent actuary based upon the Pool's historical experience of claims incurred prior to June 30, 2008. The estimates reflect the actuary's best judgment as to the potential for claims to increase beyond the amounts already paid and reserved on filed claims, including the effects of inflation and other societal and economic factors. It is at least reasonably possible that a material change in the estimate will occur within the near term and thus the actual claims paid may be substantially different than these estimates. Any future adjustments to these amounts will affect the reported results of future periods.

The following represents changes in reserves for claims for the years ended June 30, 2008 and 2007:

	_	2008		2007
Reserves for Claims - Beginning of year	\$	14,813,297	\$	15,349,177
Incurred Claims and Claim Adjustment Expenses				
Provision for claims incurred in current year Change in provision for claims		13,528,557		12,110,675
incurred in prior years	_	(1,376,488)	_	(3,010,802)
Total incurred claims and claims adjustment expenses		12,152,069		9,099,873
Payments				
Claims and claims expenses paid for claims incurred in current year Claims and claims expenses paid for claims		6,252,425		5,075,141
incurred in prior years	_	5,750,862	_	4,560,612
Total payments	_	12,003,287		9,635,753
Reserves for Claims - End of year	<u>\$</u>	14,962,079	<u>\$</u>	14,813,297

Notes to Financial Statements June 30, 2008 and 2007

Note 4 - Reserves for Claims (Continued)

The provision for incurred prior year claims decreased due primarily to claims settling for amounts different than originally estimated.

The details of the reserve for claims are given below:

	 2008	 2007
Reported but unpaid Incurred but not reported	\$ 8,824,775 6,137,304	\$ 8,211,954 6,601,343
Total	\$ 14,962,079	\$ 14,813,297

The following, based on historical trends of the Pool, summarizes the anticipated settlement of claims at June 30, 2008 and 2007:

	2008	 2007
Claims anticipated to be settled within one year Claims anticipated to be settled in excess of one year	\$ 5,590,000 9,372,079	\$ 4,920,000 9,89 <u>3,297</u>
Total reserves for claims	\$ 14,962,079	\$ 14,813,297

Note 5 - Net Assets

Premium and investment earnings surplus funds from net assets may be returned to members of the Pool at the discretion of the board of trustees. The board of trustees approved the return of premium and investment earnings surplus of \$6,000,000 and \$5,500,000 during the years ended June 30, 2008 and 2007, respectively.

Note 6 - Excess Insurance Coverage

The Pool uses excess insurance agreements to reduce its exposure to large aggregate and specific losses. Excess insurance permits recovery of a portion of losses from excess insurance carriers, although it does not discharge the primary liability of the Pool as direct insurer of the risks reinsured. The Pool does not report reinsured risks as liabilities unless it is probable that those risks will not be covered by reinsurers. Premiums ceded to excess insurance carriers during the years ended June 30, 2008 and 2007 totaled \$10,996,158 and \$11,144,153, respectively, and the amounts deducted from reserves for claims as of June 30, 2008 and 2007 for excess insurance totaled \$4,180,794 and \$3,516,613, respectively.

Required Supplemental Information Schedule of Claims Information for Line of Coverage

Claims Development Information

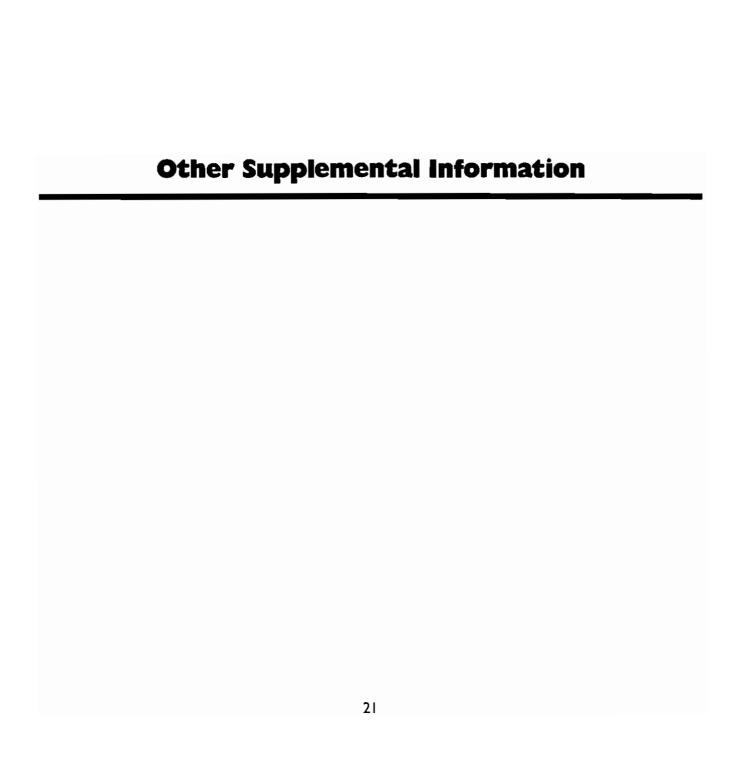

The table on page 20 illustrates how the Pool's earned revenue (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by excess insurers) and other expenses assumed by the Pool as of the end of each of the last 10 years. The rows of the table are defined as follows:

- (1) This line shows the total of each fiscal year's gross earned contribution revenue and investment revenue, contribution revenue coded to reinsurers and net earned contribution revenue and reported investment revenue.
- (2) This line shows each fiscal year's other operating costs of the Pool, including overhead and claims expense not allocable to individual claims.
- (3) This line shows the Pool's gross incurred claims and allocated claim adjustment expenses, claims assumed by reinsurers, and net incurred claims and allocated adjustment expenses (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year).
- (4) This section of 10 rows shows the cumulative net amounts paid as of the end of successive years for each policy year.
- (5) This line shows the latest re-estimated amount of claims assumed by reinsurers as of the end of the current year for each accident year.
- (6) This section of 10 rows shows how each policy year's net incurred claims increased or decreased as of the end of successive years. This annual reestimation results from new information received on known claims, re-evaluation of existing information on known claims, as well as emergence of new claims not previously known.
- (7) This line compares the latest re-estimated net incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of net claims cost is greater or less than originally thought. As data for individual policy years matures, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the table show data for successive policy years. A part of the annual change in estimated claims will be an increase attributable to accretion in the present value computation. That amount is not shown separately.
